

Overall Score

35/100

Response time 528 ms

Failed Checks

- ? No compression enabled

Warnings

- ? Serves HTTP/1.1
- ? No Cache-Control header
- ? Keep-Alive not detected
- ? No CDN detected

How to Fix

- Enable GZIP - compressing responses can significantly reduce page load times.
- Upgrade to HTTP/2 or HTTP/3 - both allow multiplexed, faster connections than HTTP/1.1.
- Improve Cache Headers - add Cache-Control so browsers and CDNs can cache this response.
- Enable Keep-Alive - persistent connections reduce overhead for visitors loading multiple resources.
- Use a CDN - distributing content closer to visitors can meaningfully improve load times.
