

Overall Score

70/100

Security score: 70/100

Passed Checks

- ? Strict-Transport-Security header present
- ? Content-Security-Policy header present
- ? X-Frame-Options header present
- ? X-Content-Type-Options header present
- ? Referrer-Policy header present
- ? X-XSS-Protection header present

Failed Checks

- ? Permissions-Policy header missing
- ? Cross-Origin-Opener-Policy header missing
- ? Cross-Origin-Embedder-Policy header missing
- ? Cross-Origin-Resource-Policy header missing

How to Fix

- Add a Permissions-Policy header to restrict which browser features and APIs the site may use.
- Add a Cross-Origin-Opener-Policy header to isolate the browsing context from cross-origin windows.
- Add a Cross-Origin-Embedder-Policy header to prevent loading cross-origin resources that don't explicitly grant permission.
- Add a Cross-Origin-Resource-Policy header to control which origins may embed this site's resources.
